EDUCATION

•Bachelor of Technology in Computer Science and Engineering

Parul University, Vadodara

2023 - Present

CGPA: 8.83

SKILLS

Languages: Python, C/C++, HTML+CSS

Libraries: NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn, TensorFlow, PyTorch, LangChain, Flask

Specializations: Agentic AI, Generative AI, RAG, Advanced RAG, NLP

Databases & Cloud: MongoDB, MySQL, AWS

PROJECTS

•AI Business Analyst Agent

LangGraph, LangChain, Groq, Streamlit, ChromaDB, HuggingFace Embeddings

- Designed a multi-agent business intelligence platform using LangGraph for parallel execution of specialized agents conducting market, competitor, and SWOT analysis.
- Built a RAG pipeline utilizing Groq (Llama 3.3 70B), Tavily Search, HuggingFace Embeddings, and ChromaDB to gather and synthesize real-time business insights.
- Developed a scalable Streamlit dashboard with robust state management to generate and visualize comprehensive executive-level strategic reports.

•VideoLens AI

Production-Ready YouTube Video Q&A Chatbot powered by Groq APIs

- Engineered a Streamlit and LangChain chatbot using Groq APIs (Llama 3.3) for context-aware YouTube Q&A and precise transcript citations.
- Built a transcription pipeline combining yt-dlp, pydub, and Groq Whisper Turbo, integrated with a local FAISS and FastEmbed RAG architecture.
- Optimized system efficiency through aggressive metadata and transcript caching, eliminating redundant processing.

•PageGenie – Legal Document Analyzer

AI-Powered Legal Document Analysis Platform

- Developed an AI legal platform utilizing PyMuPDFLoader and Groq LLM to extract complex PDFs and enable real-time, grounded natural language Q&A.
- Implemented a scalable hybrid Graph and Advanced RAG pipeline combining vector search via Qdrant and Hugging Face Embeddings.

CERTIFICATIONS

• Complete Data Science, Machine Learning, DL, NLP Bootcamp

Krish Naik, KRISHAI Technologies Private Limited

Verify

EXPERIENCE

•Artificial Intelligence & Machine Learning Intern

CodeMore Technologies

April 5, 2026 - May 3, 2026

Certificate ID: CM-EGXCWLFBNVJO

- Demonstrated exceptional skills, dedication, and professionalism while contributing significantly to assigned AI and ML projects.
- Acquired hands-on experience and engaged in continuous learning within a collaborative, professional environment.

ACHIEVEMENTS

• Qualified GATE 2026 Exam – Data Science and Artificial Intelligence (DA)

ADDITIONAL

- Preparing for **GATE-2027** (Data Science & Artificial Intelligence – DA)
- Focused on Data Science, Machine Learning, AI, Statistics, DBMS and Data Warehousing
- Currently developing a Generative AI project utilizing Retrieval-Augmented Generation (RAG)
- Actively exploring and implementing Agentic AI for autonomous workflows
